## PLENARY TALKS

BACZYŃSKI Michał: <i>Fuzzy implications: historical overview and state-of-the-art</i> .....	7
CORNELIS Chris: <i>Interval-Valued Fuzzy Set Theory: Results and Challenges</i> .....	9
DI NOLA Antonio: <i>Local MV-algebras: a survey</i> .....	10
DVUREČENSKIJ Anatolij: <i>States on Algebraic Structures</i> .....	11
GRABISCH Michel, MIRANDA Pedro: <i>On the structure of the <math>k</math>-additive core</i> .....	12
KLEMENT Erich Peter: <i>Different Types of Aggregation Operators and Their Interrelationship</i> .....	13
LIANG Jiuzhen, NAVARA Mirko: <i>Technical Aspects of the Use of Steiner Point of Fuzzy Set</i> .....	14
SAMINGER-PLATZ Susanne: <i>Triangle functions – what they are and what they are good for?</i> .....	16
SPIZZICHINO Fabio: <i>Stochastic Dependence and Ageing. An applications-oriented view of copulas and semi-copulas</i> .....	18

## CONTRIBUTED TALKS

ALIYEV Maksud, ISAYEVA Elmira, ALIYEV Isfandiyar: <i>Fuzzy sets and fuzzy logic in some physical tasks</i> .....	20
ASMUSS Svetlana, RUZHA Vecislav: <i>On a construction of an <math>L</math>-fuzzy valued measure of <math>L</math>-sets</i> .....	21
BACIGÁL Tomáš: <i>Fitting Archimax copula to bivariate data in <math>R</math></i> .....	22
BOCCUTO Antonio: <i>The Šipoš Integral with respect to Riesz Space-valued Capacities</i> ...	23
BUKOR József, MIŠÍK Ladislav, TÓTH János, T.: <i>On continuity of asymptotic fuzzy measures with respect to a parameter</i> .....	24
CANDELORO Domenico, BOCCUTO Antonio: <i>Defining Limits by means of Integrals</i> ..	26
CARDIN Marta, MANZI Maddalena: <i>Aggregation functions: an approach using copulae</i>	28
CIUNGU Lavinia Corina: <i>On perfect algebras of fuzzy logics</i> .....	30
CORNELIS Chris, HURTADO MARTÍN Germán: <i>A New Approach to Fuzzy-Rough Data Analysis</i> .....	32
ČUNDERLÍKOVÁ Katarína: <i>Individual ergodic theorem on family of IF-events with product</i> .....	33
DREWNIAK Józef, KRÓL Anna: <i>Families of weak connectives</i> .....	34
DROBNÁ Eva, CHOVANEC Ferdinand, KÓPKA František, NÁNÁSIOVÁ Oľga: <i>Conditional states on <math>D</math>-posets</i> .....	35
DRYGAŚ Paweł: <i>On some properties of uninorms</i> .....	36
DUCHOŇ Miloslav: <i>Moment problem for double fuzzy sequences</i> .....	37
DUDZIAK Urszula: <i>Weak properties of fuzzy relations in the context of aggregation process</i> .....	38
DUDZIAK Urszula, PEKALA Barbara: <i>Equivalent bi-fuzzy relations</i> .....	39
DURANTE Fabrizio: <i>Multivariate distribution functions with given marginals</i> .....	40
DURANTE Fabrizio, MESIAR Radko: <i>How non-symmetric can an Archimax copula be?</i>	41

ĐURICA Marek: <i>Maličký and Hudetz entropy on IF-dynamical systems</i> .....	42
FOSCHI Rachele: <i>Threshold copulas, iper-dependence and evolution of ageing</i> .....	43
FRIČ Roman, PAPČO Martin: <i>D-posets of fuzzy sets: a categorical approach I.</i> .....	44
FRIČ Roman, PAPČO Martin: <i>D-posets of fuzzy sets: a categorical approach II.</i> .....	45
GAVALEC Martin, MLS Karel: <i>On-line Fuzzy Optimization Based on Cognitive Hierarchy Process</i> .....	46
GRBIĆ Tatjana, DAŇKOVÁ Martina, ŠTAJNER-PAPUGA Ivana: <i>Properties of the pseudo Riemann-Stieltjes integral</i> .....	47
HABAJ Rafał, KRÓL Anna: <i>Probability of a generalized bifuzzy sets</i> .....	48
HLINĚNÁ Dana, KALINA Martin, KRÁL Pavol: <i>Evaluation by Choquet integral</i> .....	49
HOFERT Marius: <i>Sampling Archimedean copulas</i> .....	51
HOFERT Marius, SCHERER Matthias: <i>CDO pricing with nested Archimedean copulas</i> .	52
HOLČAPEK Michal: <i>Graded Equipollence of L-fuzzy Sets</i> .....	53
HYČKO Marek: <i>Properties of subinterval algebras</i> .....	55
JAFARI S., LATIF R. M.: <i>On some notions in the context of fuzzy <math>\theta</math>-open sets and fuzzy <math>\theta</math>-closure operator</i> .....	56
JANIŠ Vladimír: <i>IF nearness</i> .....	59
JAWORSKI Piotr: <i>On copulas and their diagonals</i> .....	60
JAYARAM Balasubramaniam, BACZYŃSKI Michał: <i>Algebra of <math>(S, N)</math>-implications</i> .....	61
JAYARAM Balasubramaniam, BACZYŃSKI Michał: <i>Some new results on <math>t</math>-norms, their natural negations and their residuum</i> .....	63
JENČA Gejza: <i>Embedding lattices into orthomodular lattices</i> .....	65
KALICKÁ Jana: <i>On some construction methods for 1-Lipschitz aggregation functions</i> ...	66
KAWABE Jun: <i>The Alexandroff theorem in Riesz space-valued non-additive measure theory</i> .....	67
KOLESÁROVÁ Anna: <i>On parametric evaluation of aggregation functions</i> .....	68
KOWALSKI Piotr Andrzej, KULCZYCKI Piotr: <i>An Algorithm for Bayes Classification of Interval Information</i> .....	70
KŮPKA František: <i>On Product on Boolean D-Posets</i> .....	71
KRAJČI Stanislav, KRAJČIOVÁ Jana: <i>Application of one-sided fuzzy formal concept analysis to social networks</i> .....	72
KRÁL Pavol, DESCHRIJVER Glad: <i>On the representation of cardinalities of interval-valued fuzzy sets</i> .....	73
KUPKA Jiří: <i>(Fuzzy) Dynamical Systems</i> .....	74
LAŠOVÁ Lenka: <i>Probability on pseudo-MV-algebras</i> .....	75
LEBEDEVA Olga: <i>Generalized fuzzy POS category</i> .....	77
LEBEDINSKA Julija: <i>On the inverse matrix of a fuzzy matrix</i> .....	78
LEHRER Ehud, TEPER Roei: <i>The concave integral for capacities</i> .....	79
MATUSIEWICZ Zofia: <i>Properties of fuzzy relation equations of type <math>\max - *</math> for some classes of triangular norm conjunctions</i> .....	80
MAZUREKOVÁ Petra: <i>Ergodic Theorem on IF-Set</i> .....	81
MESJAR Radko, STUPŇANOVÁ Andrea: <i>Level-dependent integrals</i> .....	83
MICHALÍKOVÁ Alžbeta: <i>A subadditive measure extension theorem in <math>\ell</math>-groups</i> .....	84
MOHAMMED Ahmed, NÁNÁSIOVÁ Oľga: <i>Orthomodular lattice and copula</i> .....	85
NAPPO Giovanna, SPIZZICHINO Fabio: <i>Relations between the Kendall distribution and the family of the level sets of a bivariate survival model</i> .....	86
NÁNÁSIOVÁ Oľga, VALÁŠKOVÁ Ľubica: <i>S-maps and d-maps on an orthomodular lattice</i> .....	87

PAJAŁ Michał: <i>Fuzzy conversion of power units' maintenance schedule to enable fuzzy assessment system implementation</i> .....	88
PAP Endre, GRBIĆ Tatjana: <i>Pseudo-weak convergence of the sequence of random closed sets</i> .....	91
PASEKA Jan, RIEČANOVÁ Zdenka: <i>States on Archimedean atomic lattice effect algebras</i>	92
PEROVIĆ Aleksandar, JOVANOVIĆ Aleksandar: <i>On strongly complete axiomatizations of certain fuzzy logics</i> .....	93
PETRIĆ Milan, SARKOCI Peter: <i>Reidemeister property and convex combinations of continuous nilpotent <math>t</math>-norms</i> .....	95
PULMANNOVÁ Sylvia: <i>Sharp and unsharp observables on <math>\sigma</math>-MV algebras – a comparison with the Hilbert space approach</i> .....	97
RAK Ewa: <i>Subdistributivity and superdistributivity of binary operations</i> .....	98
RENČOVÁ Magdaléna: <i>On the <math>\varphi</math>-probability and <math>\varphi</math>-observable</i> .....	99
RIEČAN Beloslav: <i>General form of <math>M</math>-probabilities on IF-events</i> .....	101
RIEČANOVÁ Zdenka: <i>Some families of effect algebras and existence of states</i> .....	103
ROSSI Giovanni: <i>Aggregation of information functions</i> .....	104
SCHLÜTER Stephan, FISCHER Matthias: <i>Weak tail dependence and the generalised hyperbolic distribution</i> .....	107
SEMPI Carlo: <i>Some families of bivariate copulas</i> .....	108
SHI Yun, VAN GASSE Bart, RUAN Da, KERRE Etienne E.: <i>On the characterization of QL-implications satisfying the Smets-Magrez axioms</i> .....	109
SOLOVJOVS Sergejs: <i>On a generalization of Goguen's category <math>Set(L)</math></i> .....	111
SZÖKEOVÁ Danuša: <i>Markov switching model for hydrologic time series</i> .....	112
ŠABO Michal: <i>On Some Properties of Fuzzy Connectives in Fuzzy Controllers</i> .....	114
ŠEŠELJA Branimir: <i>Fuzzy totally intransitive relations and fuzzy orderings</i> .....	116
ŠOSTAK Alexander: <i>Approximative fuzzy systems and approximative fuzzy spaces</i> .....	118
ŠPIRKOVÁ Jana: <i>Generalized weighted aggregation operators based on minimization</i> ...	119
ŠTAJNER-PAPUGA Ivana, GRBIĆ Tatjana: <i>Limit theorem for interval-valued functions in the pseudo-analysis' framework</i> .....	120
ŠTĚPNIČKA Martin, DE BAETS Bernard, DAŇKOVÁ Martina: <i>Monotonicity of implicative fuzzy models</i> .....	121
TEPAVČEVIĆ Andreja: <i>Representations of families of subsets by lattice valued fuzzy sets</i>	123
UĽJANE Ingrida: <i>Extending <math>L</math>-valued relations to the <math>L</math>-powersets</i> .....	124
VALENČÁKOVÁ Veronika: <i>MV-algebras with product</i> .....	125
VAN GASSE Bart, CORNELIS Chris, DESCHRIJVER Glad, KERRE Etienne E.: <i>Interval-Valued Residuated Lattices</i> .....	126
VINCEKOVÁ Elena, PULMANNOVÁ Sylvia: <i>MV-pairs and factorization</i> .....	127
VIVONA Doretta, ŠTAJNER-PAPUGA Ivana: <i>Generalized generated pseudo-operations as a base for the pseudo-linear superposition principle for the Monge-Ampère equation</i> .....	128
WEIGERT Florian: <i>Modelling temporal dependence with copulas</i> .....	129
